

Mudita Hospital — Staff cheat sheet

Print and laminate for the reception / pharmacy desk. Also: Help → Print cheat sheet in the app (? key).

1. Sign in

- 1. Open Mudita on the clinic PC.
- 2. First launch: enter **Server IP** (port 8080), e.g. 192.168.1.10.
- 3. Sign in:
 - Reception: reception / (hospital password)
 - Pharmacy: pharmacy / ...
 - Admin: admin / ...
- 4. Idle ~15 minutes → auto lock. Switch language **English / မြန်မာ** in the top bar.

2. OPD bill (cash)

- 1. Home → **OPD** → New bill.
- 2. Patient name → doctor → type item or service **code** → **Enter** to add line.
- 3. **Pay cash** (stock drops on pay) → **Print**.
- 4. Void needs a reason (restores stock if already paid).

3. OT case cart

- 1. Home → **OT** → New case → add items → **Issue**.
- 2. Print pick list → take upstairs.
- 3. **Reconcile**: Used / Returned / Wasted / Kept on floor.
- 4. Create OT bill → Pay cash → Print.

4. Pharmacy

- 1. Home → **Pharmacy** → search by code or name.
- 2. New item: code, category, prices, reorder level, first batch + expiry.
- 3. **Restock** an existing code (unknown codes must be created first).
- 4. Home → **Reports** → Low stock / Near expiry.

5. Reports

Report	Who	What
Daily cash	Reception / Admin	Paid OPD + OT totals for a date
Low stock	Pharmacy / Admin	MAIN qty ≤ reorder level
Near expiry	Pharmacy / Admin	Batches expiring within N days

Use **Print** on each report for the day book.

6. Daily ops

- Morning: confirm green **Server connected**.
- Admin → Settings → **Backup** (also copy backup folder to USB weekly — see DEPLOY.md).
- Training dry-run: Settings → **Training** → Seed (uses DEMO- codes and [TRAINING] patients only).
- Press ? for in-app help.

Myanmar summary / မြန်မာ အကျဉ်း

- 1. **ဝင်ရန်** — ဆာဗာ IP → အကောင့်ဝင် → ဘာသာစကား EN/မြန်မာ။
- 2. **OPD** — လူနာ + ဆရာဝန် → ကုန် Enter → ငွေသားပေး → ပရင့်။
- 3. **OT** — ကွေ့စ် → ထုတ် → pick list → စစ်ဆေး → ဘေလ်။
- 4. **ဆေးဆိုင်** — ကုန်ရှာ → restock / item အသစ်။
- 5. **အစီရင်ခံစာ** — နေ့စဉ်ငွေ / စတော့နည်း / သက်တမ်းနီး။
